

PERSPECTIVES FOR INTELLIGENCE

It might be useful for the Chairman of the Working Group to acknowledge that some of the Members -- e.g., Mr. Cordesman on behalf of Mr. Ellsworth -- have noted a probable ambiguity in the wording of the item in the Agenda for the May Meeting memorandum. The terms "basic document and proposed changes" refer to the last published Perspectives, i.e., for 1975-1980, plus the draft sections 1 and 2 of the Perspectives for 1976-1981. No one, the Chairman might add, has produced a draft section 3 as yet. The results of this discussion are to be communicated by the IC Staff to the NIOs in order to prod them to complete the drafting.

25X1A9a [REDACTED] will bring to the meeting the pertinent documents: published Perspectives, draft sections 1 and 2, and comments.
